“ My son and his family were lucky to move in next door to this man and they each befriended each other over a short time . When my sons' daughter began talking her first words were a daily 'hi carl!'when he pulled into his driveway. He was an awesome example of a neighbor and human . So very sorry he's gone. He will be greatly missed.

“ I had the pleasure of working with Carl time to time. I don't know what to say except he was a great guy with a big heart; he often showed me things he knew that made my job easier; he often talked about his wife & his past. I feel blessed I got to have a friend like Carl. It has been a very hard week for everyone in his life.

“ Carl was one of the nicest people I've ever had the fortune of knowing. He was the only person I've ever met who described work as, "fun". He always had a kind smile, a kind word, and brought me more tomatoes from his garden than I could ever eat! Always the first to offer a helping hand to anyone that needed it. We will miss him more than any words can say.

“ My earliest memory of my brother was the little yellow plywood boat he built. Worked on it for days. We had a huge pond in our backyard filled with all types of wildlife including alligators:). He lovingly asked me to get in the boat to try it out to see if it floated and pushed the boat away from the shore. I was so excited sitting in it as it drifted away from shore-until it started leaking and sinking! He immediately jumped in and pulled the boat and I back to shore-heroo that he's always been! Our adventures over the years never stopped but occurred less frequently over the years. He always had the happiest laugh and never a negative word. Was loved by everyone who knew him. Hard to imagine a future with no more Hi Sis what you up to? Just checking in. Every birthday and holiday we're not complete till his call came in.
