“ Dr. Green was a kind, thoughtful and attentive pediatrician to my children, as were other doctors at Medical Arts back then. He listened to, and respected the concerns and opinions of the parents. I wish more doctors could be like him today. He leaves a wonderful legacy of care to so many. May God comfort his family and inspire more doctors to be like him.

“ My sincere condolences go out to the Dr. Green family on the passing of their respected and beloved husband, father and grandfather. It has been my pleasure and honor to have known and professionally worked with him and the other pediatricians of Medical Arts Clinic in providing services to so many families...He and his group were the leaders in pediatric care in the Appleton area for so many years...and my twin brother and I at Hoffman Drug (Appleton) were so fortunate to have been able to be a part of that service offered...Gentlemen like Dr. Green are a blessing to the families that they have served and his legacy is just that...remembered and respected...Respectfully sent, Ron Hoffman, Appleton, WI

“ I had the honor and privilege of working with Dr. Green at St. Elizabeth's Hospital in Appleton Wi. I started working there in 1977. The pediatric was a busy unit at that time and we took care of many sick children (including my own). The pediatricians were very busy in those days - seeing inpatients in the morning and afternoon plus attending to their clinic practice. He did a great job taking care of all those sick children. He ran a tight ship though and let us nurses know when we could have done something better. I learned a lot from him. I remained a pediatric nurse at St. E's for 42 years - retiring just this year. He had a great grin and we all loved his bow tie - even when we made it spin!! My condolences. Jann Seidl

“ I remember my Mother talking highly of Dr. Green. She had full confidence in his skill and judgement as a pediatrician. He was one of the great pediatricians of the sixties and seventies along with Dr. Williams. My Mother took all five of us to Dr. Green or Dr. Williams. Sad to see of his passing; he was a great man all around. Prayers for his family and friends.

“ Dr. Green was my daughter's doctor who was born in 1972. He was such a kind and mild mannered doctor I had ever had the pleasure of meeting. I always felt so assured knowing he knew exactly what to do. We went through alot of colic issues and ear infections during her childhood and Dr. Green was always there to listen and help whatever issues we were going through. Thank you Dr. Green. Rest in Peace and prayers for you and your family.

“ Dr. Green was a great support to my mom and family as she worked to keep my brother healthy in his early years. Terry has cognitive and some physical disabilities and his original prognosis was that he might not live past 6 years. He is now 50 and lives a fine life in group home in Appleton--goes to a work place, has had an education, goes to church, has many friends and a great sense of humor. My mom and I send our condolences with memories of a loving Doctor who cared and had patience when others did not. Much love your way.
