“ I will miss Barbara very much. When I visited Florida we would get together and go out for lunch and then off to the flea market! We both liked to shop and had so much in common. She was a great lady and I will certainly miss her. My thoughts and prayers are with the family whom she loved very dearly. She will all live in our hearts. Rest in Piece my good friend. Until we meet again.

Love,

I worked with Barb at NASA and American Radiology. We shared many good times and stayed in touch at our special dinners for so long when we no longer worked together. I will think of her often and remember all the great times we shared.

“ It saddens me to see that she is gone. I worked with her at NASA for 6 years. She was so afraid of birds, she would practically jump out of her skin when one flew into the window at work. I will miss her very much. So very sorry for your loss.
