“ *I am saddened to hear the passing of Jake. I worked with Jake on the ARS project and the CA stateside conversion project for over 10 years until he retired. I still look at those pictures. He was our project director over the IT section He was a man of few words sometimes, but I admired and respected him. He will be missed but not forgotten.*

“ *I worked with Jake in the ARS Conversion project and then with him in LA for over 3 years. I had lunch with him pretty much every day across the street from the Commerce building. We talked IT a lot. But over the years I got him to talk about his wife and daughter. His generally serious face would light up; it was clear how much he loved them. He was a big part of my life for the 3 years I spent in LA.*

My funniest memory was when he won a big award at the CSDA Conference. I actually got him to dance - well kind of 😊.

“ In the mid 80's, I hired Jake at the former Cal Fed savings and Loan in Los Angeles. I remember his as a very professional I. T. manager who would always find a way to get a job done. His work ethic and leadership were reflective of his Midwestern work ethic and upbringing. I am saddened to hear of his passing, which is far too soon.

“ *Jake Jacobson was one of the first employees I met when I was appointed the first Director of the newly created LA Child Support Department in 2001 and I often ate lunch with him. As IT Director Jake helped to increase collections to over \$500 million for the first time and developed the first online policy manual for workers. He helped supervise a call center which received over 4 million calls per year. Jake was a consummate professional and one of the most skilled IT Directors I have met in my over 45 years of service. He was always available to help resolve complex problem. The lives of thousands of families and children in Los Angeles County and throughout the nation were enhanced by the hard work and dedication of Jake Jacobson-He truly made a difference in the lives of so many individuals.*
