“ *Dr. Deocampo was my doctor as a child; always knew when I was going to get a shot when he reached up into that cabinet 😊 He was a great doctor and I went to him until I was in my 20's. May he Rest In Peace*

“ *I just googled Dr. Nester Deocampo because I was just thinking about the only Dr. I had from the age of 2-3 until I was in my twenties. I was the little girl he most didn't want to see I'm sure. I used to hate shots so he would have to put me over one knee and hold me down with the other leg. I was the one that was brought into the office as an emergy to have an eraser taken out of my nose and another time a bead out of my ear. Lol. I took my son to him when he was 5 and needed his shots for school. Dr. looked at me like why did you bring him here. Hahaha. I told Dr he would be better than me and he was and Dr. was impressed and told my son so. That is just a very few memories I have of him. I always wished my health insurance would bring me back to him. I'm so sorry for your loss. I always put him on a pedestal over all other Drs.*

“ *Nester and Marie have been true friends over the years. They were both so good to my father, Phil Severs, in his later years through fellowship at St. John the Evangelist. Nester will truly be missed. May God bless Marie and the entire Deocampo Family.*

“ *Nester and Marie have been inspirations to me over the past 5 1/2 years. Their shared stories gave me hope. Nester traveled a long long way to achieve his serenity. Marie continues to be an inspiration and example of how one can become stronger to overcome the personal challenges that we share as well as our family members. My love and prayers are with each of them and I will send a hug until I can hug Marie in person. Marie you are beautiful and strong. Nester loved you so much as you love Nester. You know he will be watching over you.*
