“ *I still can't believe you are gone. I go by your home many times a week and still see the ramp by the front door and hope someone will appear. So many fun dinners we had with you and Wally. I remember the last time I saw Wally at the clubhouse...sitting in a corner with you and your caregiver and still cracking jokes. Our most recent visits were only by phone and I'm thankful for that. Had Covid not reared it's ugly head we would have had many more visits. Our last time together was the day we went to the club for lunch and took the golf cart tour of the course renovation. I love you special lady. Looks like I'm the last one standing. Be happy. No more pain*

“ We started our businesses in Lake Orion about the same time, and I remember their original location and their success that led them to the much better location in the current spot. Such down to earth and wonderful people who loved family and always talked of them while getting their hair done. Some people in our business you just look forward to seeing them and your Mom, as well as your Dad, were such people. I have missed them since they moved.
