“ *Walter and Sally have appeared and disappeared and reappeared in,y life over the Lat 40 years. After meeting them there was a gap. Then Sally showed up in choir and Walter was on my PRSA aural exam board. And...so many more random, blessed encounters. I was telling someone about the history and they said, "he was important in your life. You miss him."*

A strong, unique interesting person. Go, on, Walter. Fix the next plain for us.
